

INTER-CANYON FIRE PROTECTION DISTRICT ISO RATINGS

For Homeowners Insurance

New: ISO Ratings Improved

ISO has completed its analysis of the structure fire suppression delivery system provided in your community. We would like to report that the resulting classification is a Class 4/8B. Properties located within 5-road miles of the recognized, responding fire station and with a needed fire flow of 3,500 gpm or less are eligible for Class 4. Properties located over 5-road miles from the recognized, responding fire stations are classified as an 8B. The private and public protection at properties in the jurisdiction with larger fire flows is individually evaluated may vary from the jurisdiction classification. Congratulations on your commitment to serve the needs of your community's property owners and residents."

-Taken from official ISO report

We have a total of 5 stations:

Station #1 7939 S. Turkey Creek Rd., Morrison

Station #2 10591 S Deer Creek Rd., Littleton

Station #3 8445 S. Hwy 285, Morrison

Station #4 13877 Grizzly Dr., in the Deer Creek Mesa Subdivision,

Littleton Station #5 10304 Georgia Circle, in Hilldale Pines Subdivision,
Morrison

We have a pumper at each station that will pump 1000 gpm and carry 500-600 gallons of water.

There are 3 tankers that carry 2200-3000 gallons of water; they are at Stations 1, 2 and 3.

We do not give a response time since we are a volunteer fire department and our times may vary.

Questions? Call 303-697-4413 x1 for further information.
